02 / Medical history & safety screening

Client name

Date

ANSWER EACH ITEM: CURRENT OR PAST HISTORY

- | | | | |
|--|---------------------------|--------------------------|------------------------------|
| Blood clot, DVT, pulmonary embolism, or clotting disorder | ☐ Yes | ☐ No | ☐ Unsure |
| Heart failure, heart disease, or unexplained shortness of breath | ☐ Yes | ☐ No | ☐ Unsure |
| Kidney disease, kidney failure, or dialysis | ☐ Yes | ☐ No | ☐ Unsure |
| Stroke / TIA, vascular disease, or uncontrolled blood pressure | ☐ Yes | ☐ No | ☐ Unsure |
| Fever, cellulitis, current infection, or taking antibiotics | ☐ Yes | ☐ No | ☐ Unsure |
| Cancer, current cancer treatment, or radiation therapy | ☐ Yes | ☐ No | ☐ Unsure |
| Lymph node removal / damage, lymphedema, or lipedema | ☐ Yes | ☐ No | ☐ Unsure |
| Diabetes, neuropathy, or reduced skin sensation | ☐ Yes | ☐ No | ☐ Unsure |
| Anemia, low hemoglobin, bleeding disorder, or easy bruising | ☐ Yes | ☐ No | ☐ Unsure |
| Open wounds, rash, skin infection, or delayed healing | ☐ Yes | ☐ No | ☐ Unsure |
| Pregnant / possibly pregnant, or recently gave birth | ☐ Yes | ☐ No | ☐ Unsure |
| Liver disease, ascites, or prescribed fluid restriction | ☐ Yes | ☐ No | ☐ Unsure |
| Implants, injected fillers / biopolymers, or prior removal | ☐ Yes | ☐ No | ☐ Unsure |
| Other ongoing medical condition or recent hospitalization | ☐ Yes | ☐ No | ☐ Unsure |

Explain all Yes / Unsure answers (condition, dates, treatment, and provider)

Medications / supplements (include blood thinners)

Allergies / reactions (latex, adhesives, oils, medicines)

If known: latest hemoglobin result, units, and test date (not a routine testing requirement)

LYMPHATIC DRAINAGE

CLIENT INTAKE & CONSENT

03 / Surgery details, consent & practitioner review

Client name

Date

Procedure(s), body areas, and surgery date(s); N/A if none

Surgeon / clinic phone

Surgeon name; restrictions / start date; clearance status (attach instructions if available)

Drains, open incisions, fluid collections, complications, or prior massage reactions

SAFETY CHECK BEFORE SERVICE

Do not start massage with suspected blood clots, fever, active infection, or new unexplained swelling. New one-sided limb pain, warmth, redness, or swelling needs urgent medical evaluation.

Call 911 for chest pain, sudden shortness of breath, fainting, or stroke symptoms. Report increasing redness, wound drainage, or worsening post-op pain to your surgical team promptly.

INFORMED CONSENT

I understand this service uses gentle manual techniques and may help manage swelling; results vary. It does not diagnose illness or replace medical or surgical care. Possible reactions include fatigue, headache, nausea, or discomfort. I will report pain, dizziness, or other symptoms immediately.

I may ask questions, decline any area, or stop the session at any time. Treatment areas and draping will be agreed before touch; sensitive areas require specific consent. This form does not authorize photographs, incision opening, wound drainage, or invasive procedures.

I confirm my answers are accurate to the best of my knowledge, will report changes, and voluntarily consent to the agreed service. Treatment may be deferred for medical review or referral.
